

FLOOR PLAN

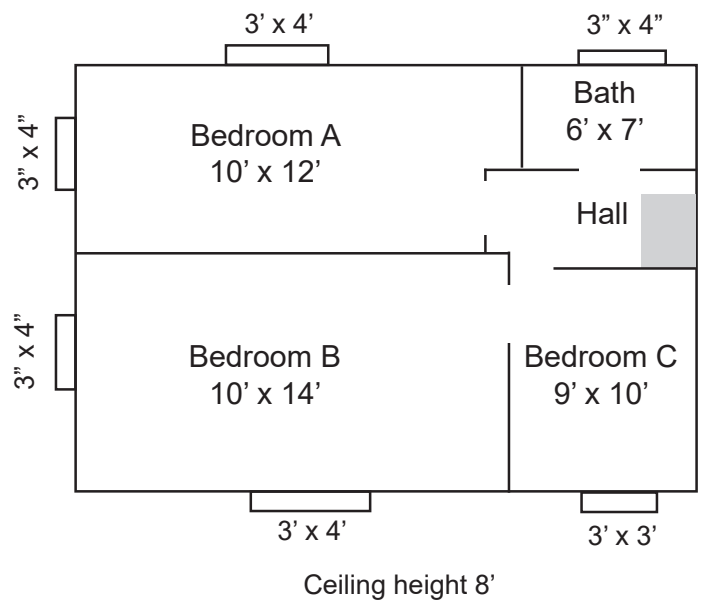

A floor plan diagram is necessary for Foster Family Homes. Please follow the example below. A diagram of each floor used as living or sleeping are must be included.

It is important to include the approximate measurements as well as location of each room, door, window, stairs, and exits.

First Floor Sample

Second Floor Sample

Home Exit Planner

Every Family Should Have A Fire Exit Floor Plan

Use this grid to map out the floor plan of your home. Label each room. Make copies of the grid for each floor of your home.

Draw arrows to indicate exits from each room (Windows or outside doors)

Walk through the planned escape routes with your family. Make sure the routes are short and direct.

Designate a place outside the home for everyone to meet.

Practice your exit drill several times a year.

(This sample is to assist you in making your plan.)

Follow the general instructions above and draw your safety escape routes with colored ink on your floor plan.

Window Exit Kitchen Door Exit	Window Exit Bedroom Door Exit	Full Bath Door Exit	Window Exit Bedroom Door Exit	Window Exit Bedroom Door Exit	Window Exit
Window Exit	Living Room Door Exit	Door Exit Half Bath	Door Exit Utility/ Mud Room Door Exit	Door Exit Master Bedroom Window Exit	Door Exit
		Door Exit Master Bath
